

## I Believe Affordable Homes Matter

Dear \_\_\_\_\_

As one of your constituents, I encourage you to keep affordable housing top of mind as first-time home ownership is becoming unaffordable.

Record-breaking numbers of families cannot afford to purchase their first home, and the gap is widening. Families struggle to pay for groceries, doctor visits and general health and well-being.

Proven solutions to help families afford their first mortgage exist – What is missing is the political will to provide resources to put these solutions into practice in communities like ours.

I urge you to take a stand for hardworking families in Nebraska and make your votes count for equity and equality in affordable housing policies and initiatives!
